EnerTech Environmental Named AlwaysOn GoingGreen 50 Winner

ATLANTA, GEORGIA (March 2, 2009) – EnerTech Environmental, Inc. (EnerTech) announced today that it has been named to the 2009 GoingGreen East 50 Top Private Companies List. Emerging green technology companies were chosen based on demonstration of growth, market opportunity, quality of innovation, and customer traction.

EnerTech was also named by AlwaysOn to the GoingGreen Top 100 for 2007 and 2008. Environmental and green technology companies are chosen as the Top 100 companies for their contributions to accelerating the global movement for a more sustainable environment through innovation, market traction, and game-changing approaches to clean tech.

“The GoingGreen East 50 companies have demonstrated their tenacity even in the toughest economic conditions that the technology world has ever encountered,” said Tony Perkins, founder and editor of AlwaysOn. “We applaud their success in pushing the boundaries of innovation, creating market opportunities and transforming the industry even in the earlier stages of their businesses.”

AlwaysOn editors compiled the first annual elite GoingGreen East 50 list with assistance from KPMG's emerging business practice, KPMG VC Practice. Together they surveyed more than 300 venture investors, investment bankers, and technology insiders, who nominated more than 500 clean technology companies to determine the GoingGreen East 50 winners.

About AlwaysOn

AlwaysOn (www.alwayson.goingon.com) ignited the open-media revolution in early 2003 by being the first media brand to launch a global blog network. In 2004, AlwaysOn continued to lead the media industry in innovation by introducing a social network where members can connect and engage. AlwaysOn is also revolutionizing the media business by applying its open-media principles to its executive event series (Summit at Stanford, OnMedia, OnHollywood, GoingGreen East and West, Venture Summit East and West) and quarterly print “blogazine” by empowering its members to post and share their ideas and meet each other online. As our loyal readers know, AlwaysOn is committed to the free-market, merit-driven approach to reporting and event programming. No other media brand has dared to create such open interaction with its readers and event participants.

About EnerTech Environmental

EnerTech Environmental, Inc. is a renewable energy company dedicated protecting public health and the environment. The company provides answers to the problems of traditional waste management methods and simultaneously creates renewable energy—in a way that makes economic sense. EnerTech's patented SlurryCarb™ process cleanly and economically converts biosolids (sewage sludge) and other high moisture wastes into a high-grade, renewable fuel with significant cost savings over alternative methods. EnerTech's corporate headquarters are located in Atlanta, Georgia. For more information, please visit www.enertech.com.
